Assignment 1

Q1: *Under what* circumstances would a user be better off using a timesharing system rather than a PC or single-user workstation?

Q2: The issue of resource utilization shows up in different forms in different types of operating systems. *List* what resources must be managed carefully in the following settings:
a. Mainframe or minicomputer systems.
b. Workstations connected to servers.
c. Handheld computers.

Q3: *Distinguish* between the client–server and peer-to-peer models of distributed systems.
